RE: Irvington Town Hall--Updated Fee (BDG #21001)

Justin;

I just returned from a Thanksgiving vacation and have prepared the attached formal addendum dated December 1, 2021 to our original contract for the Town Council's formal authorization. Please keep in mind that in addition to the fee authorization we'll also need some additional "technical input" from the Town to move forward. Things like:

- Any other specific comments on concept layout (already heard "try to move office closer to road" from public)
- Concept building plan (size, shape, crawl space or slab on grade, etc.)
- Some level of contact with the adjacent owner about willingness to dedicate drainage easement/ allow minor drainage improvements
- Some input on the possibility of allowing smaller parking spaces (9' x 18' as regionally accepted) than what Town code already requires (10' x 10')

Thanks,

Ben
